## EXPERIENCE

### DRIVER MODE
Remote

**Software Developer (Freelance)** — Mar 2024 — Oct 2024

- Designed and developed an end-to-end Flutter web and mobile application with role-based access control (admin, transport company, and driver) and real-time driver tracking using Firebase.
- Extended core functionality using native iOS (Swift) via platform channels, integrating Screen Time APIs to help ensure drivers stay focused on the road rather than on their phones.
- Integrated Stripe subscription billing via a custom Node.js backend supporting recurring payments

### PINSTER
Remote

**Mobile Developer (Freelance)** — Jan 2024 — Mar 2024

- Delivered a production Flutter application with collaborative, customizable photo-editing features
- Published and maintained the app on the Apple App Store

## PROJECTS

**Swipe-Based Photo Cleanup App (iOS)**

- Built a native iOS application using Swift/SwiftUI, implementing TCA with unit tests
- Developed an infinite swipe-based interface with optimized loading to reduce memory usage and ensure smooth, responsive swiping
- Integrated StoreKit 2 for subscriptions and in-app purchase workflows
